

message australia privacy policy

privacy

Information is collected by Message Australia for only two purposes.

We retain a buyer's e-mail address, phone number and delivery address for the purpose of tracking customer's orders and returns. Delivery information is provided to Australia Post in order to ship our products.

Message Australia does not give out any personal information to other organisations or persons. Message Australia may, from time to time, use client information to forward notice of Product Specials or Memberships that may improve the customer's own buying power.

This information is collected for the purpose of improving our customer's and potential consumer's shopping experience and making improvements to our website.

Orders placed at Message Australia are encrypted, using Secure Socket Layer Technology (SSL). With the Secure Socket Layer, any information forwarded to use via the eStore is encrypted to protect you against 3rd party access and false transactions.

If you have any questions, comments, or concerns, please contact us.
